

Horace A. Moses Scout Reservation Wood Policy

Updated August 2019

The transportation of any wood into or out of camp is prohibited. This includes firewood, kindling, and poles or staves which have come from outside the camp. This prohibition includes lumber and pallets.

- Firewood will be provided with camp building rentals for indoor heating only at no additional charge.
- Campers may collect dead and downed firewood for outdoor campfires.
- Staves, poles and pioneering project wood will be provided from a stockpile supply at the camp.

This “**Don’t Move Firewood**” policy follows the recommendation of the US Forest Service, National Park Service and Massachusetts state guidelines. Invasive insects and diseases present a growing threat to our valuable camp resources. Your understanding and cooperation with this important conservation policy is appreciated. Help us preserve our camp woodlands for generations of Scouts to come.

WMC Properties Committee and Conservation Committee
